You get state RN licensure

You start working as a Registered Nurse

\$77K

Average annual wage of registered nurses

To progress to advanced nursing education as a nurse practitioner, educator, or leader, a solid foundation as a nurse is integral to your practice. Our master's programs prefer some nursing experience before entry. Caring for patients is the core of nursing and the more experience you gain, the better informed you will be to specialize in the field that's right for you.

## You want to pursue Advanced Nursing Education

You earn your master's degree, with a concentration in/specialization as a:

### Clinical Nurse Leader

Clinical Nurse Leaders influence the way patient care is delivered as system thinkers and change agents.

### Nurse Practitioner

- Psych Mental Health
- Family
- Adult-Gero Acute Care
- Adult-Gero Primary Care
- Pediatric
- Pediatric Neonatal

### Leadership in Health Care Systems

Health care professionals in this program will learn how lead/manage interdisciplinary teams in a complex health care environment.

### Nursing Education

Experienced nurses in this program are trained to teach the next generation of health care professionals in an academic or clinical setting.

You pass the CNL Certification Exam and apply for state licensure to work as a CNL.

You pass the NP Certification Exam and apply for state licensure to work as a NP.

You earn your master's and take on a teaching role at a university/college or hospital.

## You earn your DNP!

You build upon your master's degree and earn your terminal degree in nursing practice, focusing on evidence-based practice, quality improvement, and systems leadership.

## You earn your PhD!

You become a nurse scientist as a PhD-prepared nurse to help educate future generations of nursing students or pioneer new breakthroughs in health care research.
